

# A.G. PAIK ENTERPRISES

Mfg. of: All Types of Wood Working Machines

## Company Profile

Established in 1989, A. G. Paik Enterprises has made a name for itself in the list of top Manufacturers of Woodworking Machinery in India. The supplier company is located in Ludhiana, Punjab and is one of the leading sellers of listed products. Leveraging on the support of our dexterous workforce, we are able to manufacture and supply high class Wood Working Machine, CNC Router & All Kinds of Special Purpose Machine, Wood Working Carbide.

# Our Products

## CNC Router 2513

Working Area	1300 x 2500mm
Rrunning Speed	25m/min
Spindle Motor	3 KW Air Cooled Spindle
Z max.	250mm
Command Code	G
Code	(*uno*nc*mmg*plt)
Power Supply	AC380v/50HZ
Guide Rail	25mm Guide Rail :
	Richauto A11E
Spindle Speed	0 ~ 1800 rpm
Drive System	Easy Servo Motors and Drive
Working Valtage	380V/3 Phase 50

CNC (short for Computer-Numeric-Controlled) machines in the past were typically relegated to larger production facilities, but these days, these versatile machines are finding a home in many a woodworker, wood shop. Once quite large, CNC wood carving machines are now available in smaller desktop or bench top formats and some are available with their own stands.

### What Can a CNC Woodwork Machine Do?

Woodworkers are discovering new uses for these amazing machines, including detailed (and quick!).

wood carving, engraving, even laser engraving, with the addition of a laser accessory for some models.

CNC machines are capable of machining a variety of mediums, including wood, soft metals, plastics and other solid surface materials.

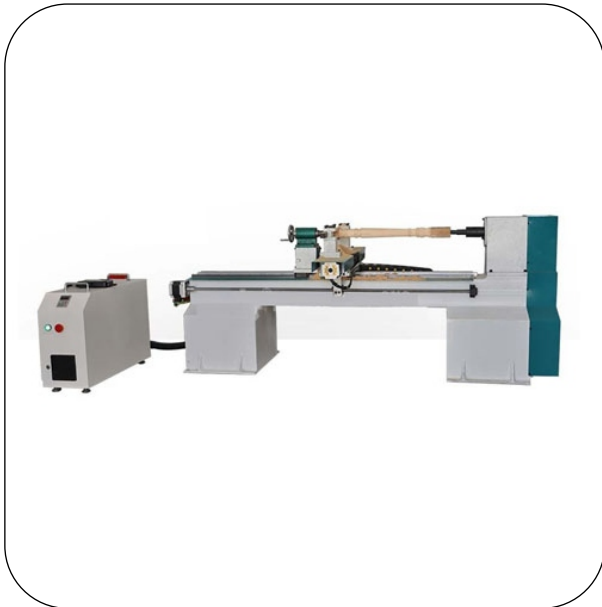

# 4 Head Turning with Sanding Machine

Automations Grade	Semi - Automatic
Motor	1.5hp* 4 motors
Brand/Maker	A.G. PAIK ENTERPRISE
Model	4 HCT
Weight	1600kg Approx
Power	6hp three phase
Bed Width Working Length	6" to 48" inch
Phase	3 Phase
Number of Spindles	4
Voltage	440V
Usage/Applications	Commercial Industrial
Frequency	50 HZ
Brand	A.G.PAIK ENTERPRISE
Automatic Grade	Semi-Automatic
Condition	New
Spindle Speed Range	100RPM
Material Cast	Iron & Mild Steel

The copying lathe with 4 horizontal spindles reproduces wood elements copying the shape from a three-dimensional template, to machine elements for Chairs, Furniture, Rifle Stocks, Oars, Tool Handles, Anatomic Sandals, Hangers, Sports Equipment, Musical Instruments.

# CNC Turning Machine

Functions	Turning
Max Wood Width	5x5"
Max Wood Length	5 Feet
Motion Motor	Easy Servo Motor Drive
Carving Motor	
Power Consumption	4KW, 3Phase + Neutral + Earthing
Essential Feature Controller	Auto Tool Zero ATC Between the Function CNC 9620
Warrenty	2X Turning Tool 6 months comprehensive Except Accessories

A Budgetary CNC Wood Lathe, in which you just need to define shape of your intended cylindrical part, feed a wooden piece at chuck and just start the machine.

## Specification :

- Maximum wood length: 1 to 5 Feet.
- Maximum wood cross section: 4x4 inch/ 6x6 inch.
- Number of tool:1/2.
- Power availability : 3 phase/Single phase.

# Double Bag Dust Collector

Brand	A.G. PAIK ENTERPRISE
Air Suction	1300 CFM
No. of Bags	4 PCS
Dia of dust hood	125mm
Motor Power	1.5 HP

We are an eminent name in this industry, engaged in offering Dust Collector. We design and develop this collector using high quality materials. Moreover, this collector is available with us in various specifications in terms of shapes and sizes. Moreover, it is extensively used in the collection of wood dust and particles from the dimension saw machine and vertical spindle molder machine.

## Features:

- Precisely Designed
- Flawless Finish
- High operational efficiency

## Other Details:

Dust Collector is used for collection of wood dust and particles from the Dimension Saw Machine and from Vertical Spindle Moulder Machine.

# Wood Handle Making Machine

## Features:

- 1.) East to operate and saving labour.
- 2.) Changing blades can produce different shape handles
- 3.) One person can operate 2machines.
- 4.) Fast productions and stable performance.

Technical parameter:

- 1.) Type Semi-automatic

## Technical Specification:

Wood handle making machine is used to produce wood handle . It has automatic feeding and unloading function, you just need to put the wood handle into the hopper, the machines will be finish automatically.

### **We have 4 different variants in this Wood Handle Machine**

- 9" Wood Handle making Machine working length 3"-9".
- 14" Wood Handle making Machine working length 10"-14".
- 16" Wood Handle making Machine working length 10"-16".
- 24" Wood Handle making Machine working length 20"-24".

# Single Belt Round Rod Sanding Machine

Range of working diameter	15 to 80mm
Range of Working Length	100mm~1000mm
Drive Motor	2hp
Sending belt size	100x2000mm
Machine size (L x W x H)	750 x 510 x 1340mm
Machine size (L x W x H)	840 x 650 x 1520mm
Net Weight	290kg
Gross Weight	350kg

## Technical Specification:

- A single belt sander that suitable for sanding round rod from 15 to 80mm in diameter.
- Priced for economical and intermediate finish, yet built for versatile sanding operation for wood, rattan, metal, acrylic, graphite.....
- Fastest feed speed the range from 6 to 20 meters per minute.  
Change abrasive belt in seconds. A single belt sander that suitable for sanding round rod from 15 to 80mm in diameter.

# Single Bag Dust Collector

Brand	A.G. PAIK ENTERPRISE
Air Suction	1300 CFM
No. of Bags	2 PCS
Dia of dust hood	125mm
Motor Power	1.5 HP

We are an eminent name in this industry, engaged in offering Dust Collector. We design and develop this collector using high quality materials. Moreover, this collector is available with us in various specifications in terms of shapes and sizes. Moreover, it is extensively used in the collection of wood dust and particles from the dimension saw machine and vertical spindle molder machine.

## Features:

- Precisely Designed
- Flawless Finish
- High operational efficiency

## Other Details:

Dust Collector is used for collection of wood dust and particles from the Dimension Saw Machine and from Vertical Spindle Moulder Machine.

# Dowel Making Machine

Model	AG-RRMM
Diameter Range	20-80 mm
Length Range	300mm ~ unlimited
Machine Size (L x W x H)	800 x 690 x 910 mm
Packing Size (L x W x H)	890 x 730 x 1,100 mm
Approx Weight	320 kgs
Gross Weight	370 kgs

Round Rod Milling machine, Round Rod Sander, Dowel Milling and Cross-Cut Machines offer the best quality, with larger capacity ranges. The highly productive Round Rod Modular will make perfect dowels and be your reliable working partner.
